1930 COUNTY LAYOUT

PROPOSED 5' WIDE BIKE AND PEDESTRIAN PATH

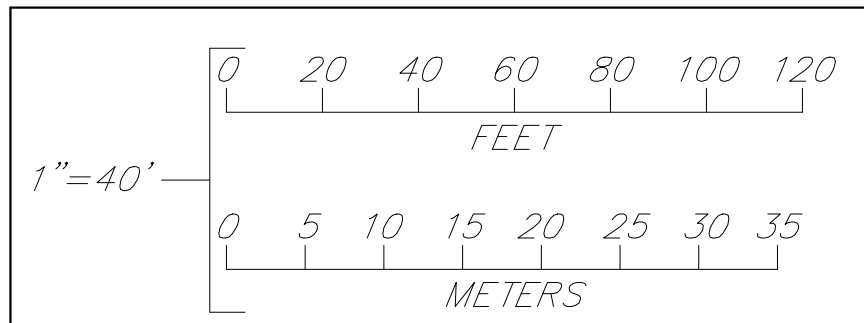

**NOTES:**

This plan is the result of a field survey performed between August 2-10, 2004. The physical features shown hereon are those visually observed at that time. Some evidence exists to indicate the presence of under ground utilities. Contact Dig-Safe prior to any construction activities.

The wetlands shown hereon were taken from the Wetlands District line as shown on the Town of Carlisle Assessor's Maps 21 & 22 and are not the result of field location.

The sidelines of East Street are shown as layed out in 1930 by the County Commissioners. The abutters shown are from recent Assessor's records. The property lines are compiled and are shown for informational purposes.

The contours shown hereon relate to NGVD of 1929, Mass Highway Point ID #10233, Station 2704, a monel rivet set in the west end of the third granite step in the front of the Gleason Library.
